

GX 7d

ROW MONITORING SOLUTION

QUANTITIES LIMITED!

RESERVE YOURS TODAY!

Row Monitoring

Monitor the flow of every row. Know every detail about where, when, and how much fertilizer you are applying.

Compatibility

The GX7D is ISOBUS compatible & connects through your virtual terminal.

Functionality

Will work in conjunction with any liquid fertilizer pump system you have in place.

Reliability

Utilizing the best equipment manufactured today.

NEW

Utilizing AgXcel Magnetic Flow Meters

- No mechanical moving parts
- For viscous or dirty chemicals
- Monitor the exact flow rate of each row.
- Audible alarm warns you if a row is plugged or under performing.
- No moving parts means minimal maintenance and more reliability.
- Replace any manifold or use in conjunction with existing plumbing.
- Quick response time
